3-Door Multi-Function Control Panel

Control three garage doors with one control panel. The LiftMaster® 3-Door Multi-Function Control Panel combines three controls in one, giving you a neat, compact appearance. The oversized illuminated push buttons make it easy to find the right button to close the garage door, and our patented Security+® system locks out all outside remote control radio signals while you're away.

- **Turns opener lights on/off** from inside the garage
- **Adjustable light timer** lets you set when you want the opener lights to go out after closing or opening the garage door
- **Locks out all outside remote control signals** while you're away
