### Laser Parking Accessory

Park in the right spot every time with help from the LiftMaster® Laser Garage Parking Assist. The laser turns on automatically and projects a beam onto your car's dashboard. Once the beam hits a pre-determined spot on your dash, you know you've pulled in far enough, and exactly where to stop.

- **Perfect for two-car garages** – up to two laser parking assists will work with each garage door opener
- **Simple installation**
- **Easy to program**
- Class 2 laser is **safe on the eyes**, yet clearly visible
